PATENT AND TRADEMARK OFFICE NOTICES

Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1289 O.G. 4, on December 7, 2004.

Either the United States Patent and Trademark Office (USPTO) or the European Patent Office (EPO) may act as the International Searching Authority (ISA) for an international application filed with the United States Receiving Office or the International Bureau (IB) as Receiving Office where at least one of the applicants is either a national or resident of the United States of America. However, the EPO is no longer a competent ISA, within the meaning of PCT Article 16(3), for international applications filed by U.S. residents or nationals on or after 01 March 2002 in the USPTO or IB as Receiving Office, and where the application contains one or more claims directed to the field of business methods. For the definition of what the EPO considers to be precluded subject matter in the field of business methods, applicants should see the "Notice from the President of the European Patent Office," dated 26 November 2001, and which was published as Annex A in the "Notice Concerning EPO Competence to Act as PCT Authority" in the *Official Gazette* at 1255 O.G. 878, on February 19, 2002.

The European Patent Office may act as the International Preliminary Examining Authority (IPEA) for an international application filed in the United States Receiving Office or the International Bureau as Receiving Office where at least one of the applicants is either a national or resident of the United States of America, provided that the European Patent Office acted as the International Searching Authority. However, the EPO is no longer a competent IPEA, within the meaning of PCT Article 32(3), for international applications filed by U.S. residents or nationals in the USPTO or IB as a Receiving Office where the corresponding demand is filed with the EPO on or after 01 March 2002, and where the application contains one or more claims directed to the fields of business methods.

The EPO resumed its competence as an International Searching Authority and International Preliminary Examining Authority, effective January 1, 2004, for international applications filed by nationals or residents of the United States of America where the application contains one or more claims relating to the field of biotechnology. This change was announced in the *Official Gazette* at 1277 O.G. 230, on December 30, 2003.

The EPO resumed its competence as an International Preliminary Examining Authority, effective July 1, 2004, for demands filed by U.S. residents or nationals on or after July 1, 2004, for international applications filed by nationals or residents of the United States of America where the application contains one or more claims relating to the field of telecommunications. This change was announced in the *Official Gazette* at 1277 O.G. 230, on December 30, 2003.

The search fee of the European Patent Office was increased, effective March 15, 2005, and was announced in the *Official Gazette* at 1291 O.G. 118, on February 22, 2005.

International fees were changed, effective on March 1, 2005, due to a change in the exchange rate of the U.S. dollar with regard to the Swiss franc, and were announced in the *Official Gazette* at 1291 O.G. 118 on February 22, 2005.

[Docket No.: 2005-P-055]
RIN 0651-AB87

Changes to the Practice for Handling Patent Applications Filed Without the Appropriate Fees

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Notice of proposed rulemaking.

SUMMARY: Among other changes to patent and trademark fees, the Consolidated Appropriations Act, 2005 (Consolidated Appropriations Act), splits the patent application filing fee into a separate filing fee, search fee and examination fee, and requires an additional fee (application size fee) for applications whose specification and drawings exceed 100 sheets of paper, during fiscal years 2005 and 2006. The United States Patent and Trademark Office is in this notice proposing changes in the Office's practice for handling patent applications filed without the appropriate filing, search, and

examination fees. The Office has implemented the changes to the patent fees provided in the Consolidated Appropriations Act in a separate rulemaking.

DATES: *Comment Deadline Date:* To be ensured of consideration, written comments must be received on or before March 30, 2005. No public hearing will be held.

ADDRESSES: Comments should be sent by electronic mail message over the Internet addressed to *AB69Comments@uspto.gov*. Comments may also be submitted by mail addressed to: Mail Stop Comments—Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, or by facsimile to (571) 273-7735, marked to the attention of Robert W. Bahr. Although comments may be submitted by mail or facsimile, the Office prefers to receive comments via the Internet. If comments are submitted by mail, the Office prefers that the comments be submitted on a DOS formatted 3½ inch disk accompanied by a paper copy.

Comments may also be sent by electronic mail message over the Internet via the Federal eRulemaking Portal. See the Federal eRulemaking Portal Web site (*http://www.regulations.gov*) for additional instructions on providing comments via the Federal eRulemaking Portal.

The comments will be available for public inspection at the Office of the Commissioner for Patents, located in Madison East, Tenth Floor, 600 Dulany Street, Alexandria, Virginia, and will be available via the Office Internet Web site (address: *http://www.uspto.gov*). Because comments will be made available for public inspection, information that is not desired to be made public, such as an address or phone number, should not be included in the comments.

FOR FURTHER INFORMATION CONTACT: Robert W. Bahr, Senior Patent Attorney, Office of the Deputy Commissioner for Patent Examination Policy, by telephone at (571) 272-8800, by mail addressed to: Mail Stop Comments—Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, or by facsimile to (571) 273-7735, marked to the attention of Robert W. Bahr.

SUPPLEMENTARY INFORMATION: Among other changes, the Consolidated Appropriations Act (section 801 of Division B) provides that 35 U.S.C. 41(a), (b), and (d) shall be administered in a manner that revises patent application fees (35 U.S.C. 41(a)) and patent maintenance fees (35 U.S.C. 41(b)), and provides for a separate filing fee (35 U.S.C. 41(a)), search fee (35 U.S.C. 41(d)(1)), and examination fee (35 U.S.C. 41(a)(3)) during fiscal years 2005 and 2006. The Consolidated Appropriations Act also provides that the provisions of 35 U.S.C. 111(a) for payment of the fee for filing the application apply to the payment of the examination fee (35 U.S.C. 41(a)(3)) and search fee (35 U.S.C. 41(d)(1)) in an application filed under 35 U.S.C. 111(a), and that the provisions of 35 U.S.C. 371(d) for the payment of the national fee apply to the payment of the examination fee (35 U.S.C. 41(a)(3)) and search fee (35 U.S.C. 41(d)(1)) in an international application filed under the Patent Cooperation Treaty (PCT) and entering the national stage under 35 U.S.C. 371. *See* 35 U.S.C. 41(a)(3) and 41(d)(1)(C). Thus, the examination fee and search fee are due on filing in an application filed under 35 U.S.C. 111(a) or on commencement of the national stage in a PCT international application, but may be paid at a later time if paid within such period and under such conditions (including payment of a surcharge) as may be prescribed by the Director. *See* H.R. Rep. 108-241, at 16 (2003) (H.R. Rep. 108-241 contains an analysis and discussion of an identical provision in H.R. 1561, 108th Cong. (2004)).

In view of the revised patent fee structure during fiscal years 2005 and 2006 set forth in the Consolidated Appropriations Act, the Office is proposing the following changes in Office practice for handling patent applications filed without the appropriate fees: That is, the filing fee, search fee, and examination fee.

The Office is proposing to: (1) Require the surcharge under § 1.16(f) in any application filed under 35 U.S.C. 111(a) in which the search fee or examination fee is paid on a date later than the filing date; and (2) require the surcharge under § 1.492(h) in any application filed under the PCT in which the search fee or examination fee is paid on a date later than thirty months from the priority date. This change is because the Consolidated Appropriations Act splits the former patent application filing (or national) fee into a separate filing (or national) fee, search fee and examination fee during fiscal years 2005 and 2006. The filing of an application which lacks any of the basic filing (or national) fee, the search fee, the examination fee, or oath or declaration requires the Office to issue a notice to file the missing parts (or requirements) of the application.

The Office is also proposing to eliminate the processing and retention fee (§ 1.21(l)) practice. The processing and retention fee practice permits an applicant to file an application without the basic filing fee (which formerly covered the cost of the initial processing of an application and part of the cost of the search and examination of an application) and pay only the processing and retention fee set forth in § 1.21(l) in order for the application to be used as a basis for foreign filing and benefit claims under 35 U.S.C. 120 and § 1.78(a). Under the revised patent fee structure set forth in the Consolidated Appropriations Act, the basic filing fee covers only the cost of the initial processing of an application. Thus, the Office is proposing to require payment of the basic filing fee (rather than just the current processing and retention fee set forth in § 1.21(l)) to retain the application. Since the Office must retain an application to permit benefit of the application to be claimed under 35 U.S.C. 120 and § 1.78 in a subsequent nonprovisional or international application, the Office is also proposing to require payment of the basic filing fee (rather than just the current processing and retention fee set forth in § 1.21(l)) to permit benefit of the application to be claimed under 35 U.S.C. 120 and § 1.78 in a subsequent nonprovisional or international application.

The Office is also implementing the provision in 35 U.S.C. 41(a)(1)(G) for the Office to prescribe the paper size equivalent of an application filed in whole or in part in an electronic medium for purposes of the application size fee specified in 35 U.S.C. 41(a)(1)(G) (§ 1.16(s) and § 1.492(j)). A 21.6 cm by 27.9 cm (8½ by 11 inches) sheet of paper with a top margin of 2.0 cm (¾ inch), a left side margin of 2.5 cm (1 inch), a right side margin of 2.0 cm (¾ inch), and a bottom margin of 2.0 cm (¾ inch)), will contain about 30 lines of double-spaced text, with each line having about 50 to 65 characters. An ASCII text (the only format permitted by § 1.52(e)) document containing 30 lines of text, each line having about 50 to 65 characters, will be slightly less than two kilobytes in size. Therefore, the Office is proposing that each two kilobytes of content submitted on an electronic medium shall be counted as a sheet of paper for purposes of the application size fee specified in 35 U.S.C. 41(a)(1)(G) (§ 1.16(s) and § 1.492(j)).

Discussion of Specific Rules

Title 37 of the Code of Federal Regulations, Part 1, is proposed to be amended as follows:

Section 1.16: Section 1.16(f) is proposed to be amended to require a surcharge if any of the basic filing fee, the search fee, the examination fee, or oath or declaration is filed in a nonprovisional application on a date later than the filing date of the application. Section 1.16(s) is proposed to be amended to include a cross reference to § 1.52(f).

Section 1.21: Section 1.21 is proposed to be amended to remove and reserve paragraph (l), which set forth the fee for processing and retaining an application in which the basic filing fee has not been paid.

Section 1.52: Section 1.52(f)(1) is proposed to be amended to provide that for purposes of determining the application size fee required by § 1.16(s) or § 1.492(j), for an application the specification and drawings of which (excluding any sequence listing in compliance with § 1.821(c) or (e), and any computer program listing filed in an electronic medium in compliance with §§ 1.52(e) and 1.96) are submitted in whole or in part on an electronic medium other than the Office electronic filing system, each two kilobytes of content submitted on an electronic medium shall be counted as a sheet of paper.

Section 1.53: Section 1.53(f)(5) is proposed to be amended to provide that if the applicant does not pay the basic filing fee during the pendency of the application, the Office may dispose of the application.

Section 1.78: Section 1.78(a)(1) is proposed to be amended to provide that to claim the benefit of a prior-filed nonprovisional application under 35 U.S.C. 120 and § 1.78(a) in a subsequent nonprovisional or international application, the prior-filed nonprovisional application must be entitled to a filing date as set forth in § 1.53(b) or § 1.53(d) and have paid therein the basic filing fee set forth in § 1.16 within the pendency of the application.

Section 1.492: Section 1.492(h) is proposed to be amended to require a surcharge if any of the search fee, the examination fee, or the oath or declaration is filed later than thirty months from the priority date. Section 1.492(j) is proposed to be amended to include a cross reference to § 1.52(f).

Rulemaking Considerations

Administrative Procedure Act: The changes proposed in this notice relate solely to the procedures to be followed in prosecuting a patent application: *i.e.*, the procedures for paying the fees due upon filing an application for patent. This notice does not propose any change to the amount of fees charged by the Office. Specifically, the changes proposed in this notice concern the procedures for payment of the filing fee, search fee, and examination fee, and setting forth which fees must be paid in order for a nonprovisional application to be processed and retained by the Office such that it may be used as the basis for foreign filing and for benefit claims under 35 U.S.C. 120 and § 1.78(a). Therefore, these rule changes involve interpretive rules, or rules of agency practice and procedure under 5 U.S.C. 553(b)(A). *See Bachow Communications Inc. v. FCC*, 237 F.3d 683, 690 (D.C. Cir. 2001) (rules governing an application process are "rules of agency organization, procedure, or practice" and are exempt from the Administrative Procedure Act's notice and comment requirement); *see also Merck & Co., Inc. v. Kessler*, 80 F.3d 1543, 1549-50, 38 USPQ2d 1347, 1351 (Fed. Cir. 1996) (the rules of practice promulgated under the authority of former 35 U.S.C. 6(a) (now in 35 U.S.C. 2(b)(2)) are not substantive rules (to which the notice and comment requirements of the Administrative Procedure Act apply)), and *Fressola v. Manbeck*, 36 USPQ2d 1211, 1215 (D.D.C. 1995) ("it is doubtful whether any of the rules formulated to govern patent and trade-mark practice are other than 'interpretative rules, general statements of policy, * * * procedure, or practice.'") (quoting C.W. Ooms, *The United States Patent Office and the Administrative Procedure Act*, 38 Trademark Rep. 149, 153 (1948)).

Under the Office's pre-existing "missing parts" or "missing requirements" practice, an applicant was required to pay a surcharge if the basic filing fee was not present on filing in an application filed under 35 U.S.C. 111 or if the basic national fee was not present on the date of commencement of the national stage of processing in a PCT application entering the national stage under 35 U.S.C. 371. The Consolidated Appropriations Act split the patent application filing (or national) fee into a separate filing (or national) fee, search fee and examination fee. Therefore, the proposed replacement of the basic filing (or national) fee in §§ 1.16 and 1.492 with the basic filing (or national) fee, the search fee, or the examination fee is simply a procedural change that is necessary to maintain (or restore) the *status quo ante* with respect to the Office's pre-existing "missing parts" or "missing requirements" practice.

The processing and retention fee practice allows applicants to file an application without the filing fee and to pay only a processing and retention fee in order for the application to be used as a basis for foreign filing and for priority under 35 U.S.C. 120. Under the revised patent fee structure set forth in the Consolidated Appropriations Act (which split the filing fee into a separate filing, search fee and examination fee), the filing fee covers the cost of the initial processing and retention of an application. Thus, requiring payment of the basic filing fee under the Consolidated Appropriations Act in order for an application to be used as a basis for foreign filing and for priority under 35 U.S.C. 120 is more compatible with the filing fee scheme set forth in the Consolidated Appropriations Act than is continuing the processing and retention fee practice.

The Consolidated Appropriations Act provides for the Office to prescribe the paper size equivalent of an application filed in whole or in part in an electronic medium for purposes of the application size fee specified in 35 U.S.C. 41(a)(1)(G). Thus, setting a paper size equivalent based upon the number of kilobytes of content that can fit onto a sheet of paper (given the current requirements for applications filed in part on CD and for paper size and margins) simply sets forth the procedures for determining the paper size equivalent of an application filed in whole or in part in an electronic medium for purposes of the application size fee.

Accordingly, prior notice and opportunity for public comment are not required pursuant to 5 U.S.C. 553(b) or (c) (or any other law). Nevertheless, the Office is providing this opportunity for public comment on the changes proposed in this notice because the Office desires the benefit of public comment on these proposed changes.

Regulatory Flexibility Act: As prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553 (or any other law), an initial regulatory flexibility analysis under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) is not required. *See* 5 U.S.C. 603.

Executive Order 13132: This rule making does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 13132 (Aug. 4, 1999).

Executive Order 12866: This rule making has been determined to be not significant for purposes of Executive Order 12866 (Sept. 30, 1993).

Paperwork Reduction Act: This notice involves information collection requirements which are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The collections of information involved in this notice have been reviewed and previously approved by OMB under OMB control numbers: 0651-0021, 0651-0031, and 0651-0032. The United States Patent and Trademark Office is not resubmitting any information collection package to OMB for its review and approval because the changes in this notice do not affect the information collection requirements associated with the information collection under these OMB control numbers. The changes proposed in this notice concern the procedures for payment of the filing fee, search fee, examination fee, and the application size fee, including setting forth which fees must be paid in order for an application to be processed and retained by the Office such that it may be used as the basis for foreign filing and for benefit claims under 35 U.S.C. 120 and § 1.78(a).

Interested persons are requested to send comments regarding these information collections, including suggestions for reducing this burden, to Robert J. Spar, Director, Office of Patent Legal Administration, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, or to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street, NW., Washington, DC 20503, Attention: Desk Officer for the Patent and Trademark Office.

Notwithstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information for the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis optical disk series are available at all PTDLs to increase access to that information. It is through the optical disk systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) at the Sunnyvale Public Library in Sunnyvale, California.
